

ENGINEERING TECHNICIAN II

\$66,683 - \$70,720 | Full-Time | Exempt | Public Works

Build the infrastructure that keeps Middleton moving.

The City of Middleton is seeking an Engineering Technician II to help plan, design, and deliver the public infrastructure our community relies on every day. From streets and sidewalks to utilities, stormwater systems, and public improvement projects, you'll play a key role in turning plans into projects that improve the quality of life for thousands of residents.

If you're someone who enjoys seeing projects come to life, solving technical challenges, and making a lasting impact on the community, this is a career where your work truly matters.

What You'll Do

- Assist with planning, design, and construction of public infrastructure projects.
- Prepare engineering drawings, maps, specifications, and technical documents.
- Perform field surveys, construction observation, and project documentation.
- Maintain GIS data and infrastructure mapping.
- Review development plans and provide technical input.
- Coordinate with contractors, consultants, and developers.
- Respond to resident questions regarding public improvement projects.
- Support project bidding, cost estimates, and contract administration.
- Utilize CAD, GIS, GPS, and surveying technology.
- Help deliver projects that improve streets, utilities, sidewalks, and stormwater systems.

What You Bring

- Associate degree in Civil Engineering Technology, Construction Management, Land Surveying, or a related field (or equivalent experience).
- Two years of related engineering, surveying, drafting, or construction experience.
- Experience with CAD, GIS, surveying, or construction documentation.
- Strong analytical, organizational, and problem-solving skills.
- Ability to manage multiple priorities while maintaining attention to detail.
- Comfortable working both in the office and in the field.
- Excellent communication and customer service skills.
- A collaborative mindset and a commitment to quality.
- A desire to learn, grow, and help build a stronger community.
- Valid driver's license.

What Sets This Role Apart

- See your work become real projects throughout the community.
- Split your time between the office and the field.
- Work on a wide variety of engineering and infrastructure projects.
- Collaborate with a talented and supportive Public Works team.
- Make a direct impact on the safety and quality of Middleton's infrastructure.
